

A GROWING PROBLEM

More than **1/2** of healthcare associated CDI cases occur in **LTC facilities** (>100,000 cases)

20% of individuals admitted to LTC acquire *C. difficile* during their stay

Prevention Strategies for MDRO/*C. diff*

Consistent performance of **hand hygiene**

Appropriate use of **gowns and gloves**

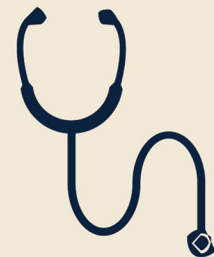

Consider resident risk factors when selecting **room placement**

Cleaning and disinfection of **shared equipment, rooms and surfaces**

Assessment of **antibiotic use**

Awareness of use and **management of medical devices**
